Education

University Of Plymouth, BSc (Hons) Computer Science

(Expected graduation date : April 2025)

NSBM Green University, BSc (Hons) Computer Science

1st year Transcript - [Transcript](#)

BT/ St. Michael's College, GCE Advanced Level in Biology

Results sheet - [Transcript](#)

Projects

1. Developed a Banking application with ATM & CDM using **Java, Java Swing & AWT, and an SQL Database**. My responsibilities included front-end development, establishing a SQL database connection, and developing essential backend functionalities, contributing to the project's success.
[View project](#) [GitHub link](#)
2. Designed and developed a library management system using **C# and .NET framework** to the needs of the University library as a desktop application as part of the OOP with C# module. My role included designing 35+ user interfaces using C# WinForms and implementing an efficient SQL database schema and developing essential backend functionalities.
